

BROAD-BASED CATEGORICAL ELIGIBILITY

Broad-based categorical eligibility refers to the policy that makes most, if not all, households categorically eligible for SNAP because they receive a non-cash TANF/MOE funded benefit or service, such as an informational pamphlet or 800-number. The below chart describes which State agencies implemented broad-based categorical eligibility, what TANF program they used to confer categorical eligibility, the asset limit of the TANF program, and the gross income limit of the TANF Program. Broad-based categorical eligibility cannot limit eligibility; it does not impose a gross income limit on seniors and disabled households. Households with seniors and disabled members who are not eligible for the TANF program used to confer categorical eligibility may apply for SNAP under regular program rules.
